TIME IS THE TEST.

The Testimony of Johnson City People Stands the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

Johnson City people appreciate merit and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? A cure that lasts is the kind that every sufferer from kidney ills is looking for.

F. P. Baxter, living on corner Spring and Walnut Sts., Johnson City, Tenn., says: "I have had kidney complaint for a long time and think the heavy lifting I have done in my time is responsible for the trouble. I suffered for a long time with a stiffness and soreness in the small of my back and I was so lame and stiff upon first arising in the morning that I could scarcely move. At last Doan's Kidney Pills were brought to my attention and I procured a box at the Patton Drug Co. Since using them I have felt much better in every way and am conscientiously saying that they have done me a great deal of good." (From statement given February 25, 1903.)

CURED TO STAY CURED.
On July 29, 1907, Mr. Baxter confirmed the above statement, saying: "I am glad to recommend Doan's Kidney Pills a second time, as I have not had any occasion to use this remedy since taking them in 1903. I still consider it to be the best remedy in existence for kidney trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

"When Justice Brewer," said a Kansas lawyer, "was on the Leavenworth circuit as a criminal judge, he had no patience with the pleas of hypnosis and such like newfangled notions that then were coming to the fore."

"Once, I remember, a man was being tried before him for shoplifting."

"A witness said he thought the prisoner had kleptomania."

"I presume, judge," he added, "you know what kleptomania is, eh?"

"Yes," said the judge, "it is a disease that I am sent here to cure!"—Washington Star.

Prolonging Life.

While no way has yet been found to make life perpetual, it is a fact that life can be prolonged. Many people die before their time because the organs become clogged and can not do their work. To keep the body open, active and free from impurities there must be no constipation, dyspepsia, flatulency, liver troubles, etc. If old or young people suffer from these complaints they can find a ready cure with Dr. Caldwell's Syrup Pepsin. It is absolutely guaranteed to do what is claimed and if you want to try it before buying send your address for a free sample bottle to Pepsin Syrup Co., 119 Caldwell Bldg., Monticello, Ill. It is sold by druggists at 50c and \$1 a bottle.

It happened on a crowded car. A seedy-looking man, very much the worse for liquor, rose to give his seat to a lady, when a robust man slipped into the vacant seat, leaving the lady still standing.

"Sa-a-y, you—your fellow you," said the boozy but chivalrous individual, as he wobbled to and fro hanging to a strap, "I—I'm drunk, I know, but I—I'll get over it, I will; but you—you're a hog, and you'll never get over it in—this world—no, sir, never!" And the other passengers agreed with him.

The Noonday of Life.

Married people should learn what to do for one another's little ills, and for the ills of children that may come. They are sure sooner or later to have occasion to treat constipation or indigestion. When the opportunity comes remember that the quickest way to obtain relief, and finally a permanent cure, is with Dr. Caldwell's Syrup Pepsin, the great herb laxative compound. A bottle should always be in the house. It is absolutely guaranteed to do what is claimed, and if you want to try it before buying send your address for a free sample bottle to Pepsin Syrup Co., 119 Caldwell Bldg., Monticello, Ill. It is sold by druggists at 50c and \$1 a bottle.

One morning a rustic appeared at the window of a postal station, and after peering through the bars inquired:

"Have you got 'bout 50 cents worth of stamps, mister?"

"Certainly," replied the clerk. "What denomination, please?"

"Wal, sir, if it's enny of your business, I'm a Baptist!"—Judge.

Mrs. Knight of Bellevue.
A dozen and one things are recommended to cure constipation, and for five years Mrs. Knight, of Bellevue, Tenn., tried them all. She was almost in despair when Dr. Caldwell's Syrup Pepsin was recommended to her. She took it and was immediately relieved. She continued with it and was permanently cured. It will cure anyone of constipation or any stomach, liver or bowel trouble. It is absolutely guaranteed to do what is claimed, and if you want to try it before buying, send your address for a free sample bottle to Pepsin Syrup Co., 119 Caldwell Bldg., Monticello, Ill. It is sold by all druggists at 50c and \$1 a bottle.

Little Arthur stood peering down into the countenance of his baby sister whom the nurse was singing to sleep.

Say, nurse, he finally whispered, it's nearly unconscious, isn't it?

The nurse nodded in the affirmative and sang on.

Then don't sing any more or you'll kill it.—March Lippincott's.

THIRD ANNUAL MEETING

Of the East Tennessee Teachers' Association, University of Tennessee, Knoxville, May 27, 28 and 29, 1908.

The third session of the East Tennessee Teachers' Association will be held at the University of Tennessee Wednesday, Thursday and Friday, May 27, 28 and 29. The East Tennessee Farmers' Convention will be in session at the university at the same time, and one or more joint sessions of the conventions will be held, thus affording the teachers and farmers an opportunity to discuss together their common problems and to gain each a better understanding of the work of the other and a fuller sympathy with it. Valuable and interesting programs are being prepared for both meetings, and it is expected that the attendance will be very large.

At the meeting of the Middle Tennessee Educational Association at Nashville a few weeks ago more than a thousand teachers were present. East Tennessee should send at least as many to this meeting at Knoxville.

The association is not for public school teachers alone, but for all teachers, whether in public or private, city or country schools or in colleges and universities, and also for all school officers and all others interested in education and the improvement of educational facilities. All are cordially invited and urged to attend and take part in the discussions and other proceedings of the meeting. The railroads have been asked to make a special rate for the meetings and it is expected that the rate will be made.

Very truly,
HORACE L. ELLIS, President.

Rad Attack of Dysentery Cured.

"An honored citizen of this town was suffering from a severe attack of dysentery. He told a friend if he could obtain a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, he felt confident of being cured, he having used this remedy in the west. He was told that I kept it in stock and lost no time in obtaining it, and was promptly cured," says M. J. Leach, druggist, of Wolcott, Vt. For sale by H. C. Miller.

"Are you going to Europe this year?"

"I don't know," answered Mr. Dustin Stax. "I haven't read the papers to-day. Are they starting any new investigations?"—Washington Star.

Dyspepsia is our national ailment. Burdock Blood Bitters is the national cure for it. It strengthens stomach membranes, promotes flow of digestive juices, purifies the blood, builds you up.

If you fear hot weather and bad bowels, Dr. Fahrney's Teething Syrup is your friend and the baby's comfort.

Mrs. Goodsole—My boy, it makes me sick at heart to see you smoking.

Kid—Dat's funny. It seems to ketch me right in the stummock.

MAN THE NATION REQUIRES.

John A. Johnson the Ideal Occupant of the Presidential Chair.

As president, Gov. Johnson would have the qualities that might described as logically and historically needed at this time, representing both in thought and by concrete achievement all of the progressive reforms to which the American people are now thoroughly committed. His personality and his methods are such that, coming into office after the strenuous and even terrifying political and financial experiences of recent years, he would be prepared to hold all that has been gained, restore an era of good feeling and smoothly and comfortably prepare the way for such additional advanced legislation as the times require.

In a word, Gov. Johnson is precisely the kind of a leader the nation requires at this time, ready for new legislation to meet new needs, but careful and conservative in his methods. The same confidence-inspiring, vote-getting attributes that have made Gov. Johnson so popular in Minnesota that there is absolutely no question that he could carry the state as the Democratic presidential nominee will make him equally popular with the voters of the nation, once they have an opportunity to become acquainted with the man.

Every political campaign has its individual conditions. It is found in this contest that Gov. Johnson possesses a strength peculiar to him alone and by which he is certain to bring to the Democratic party upwards of a million votes in the middle west that have hitherto been Republican. This condition insures beyond a reasonable doubt victory for Democracy and Gov. Johnson in the following states: Minnesota, North and South Dakota, Illinois, Wisconsin, Iowa, Kansas, Nebraska, Colorado, Montana, Washington and Michigan.

PLATFORM BROAD AND STRONG.

Declarations of Gov. Johnson All Democrats Will Indorse.

"The Man from Minnesota" believes in the "immediate revision of the tariff, to the end that articles now controlled in America by illegal and immoral combinations may be deprived of their tariff power to rob the community." He believes that tariff revision is one of the most important works for the correction of the abuses that are plaguing the country.

He believes that the maintenance of government by the people involves the least interference by federal power with the domestic affairs of the states consistent with efficient national administration.

He believes in the constitution. "For a president," he says, "to go outside the constitution, even to accomplish a beneficent purpose, is to enter the

road that leads to the destruction of republics."

He is opposed to the government ownership of railways, by state or nation, but, as his acts show, is a strong believer in just and rigorous regulation.

He is opposed to over-sea expansion. He favors "the peaceful consolidation of the continent from Panama to the Arctic circle."

He is opposed to great military establishments, but believes that the size of the American navy must necessarily be determined to some extent by the naval activities of other countries.

He is opposed to ship subsidies. "You can't kill combinations," he says, "but when they come in to crush the business of individuals they must be opposed as evils."

He believes in an income tax.

He believes in the just and equal enforcement of law, and that the observance of the law is an incumbent upon the rich and powerful as upon the poor and weak.

LEADER IN INSURANCE REFORM.

Whole Country Benefited by Action of Gov. Johnson.

Having had some valuable experience in re-organizing a powerful Minnesota insurance company, Gov. Johnson was well prepared to deal with the emergency which arose when the corruption and extravagance of the management of the great national life insurance companies was revealed in 1905.

In November of that year, he wrote a letter to President Roosevelt, which placed him in the front rank of national leaders. In this letter the governor suggested a conference of governors and attorney generals to be called by the president at Chicago. The conference was held in the following February and Gov. Johnson, as its chairman and dominant figure, named the famous "committee of fifteen," whose recommendations were embodied in the law in Minnesota and in about a dozen other states.

While the momentous decision recently given by the supreme court in similar cases coming up from North Carolina and Minnesota may have the effect of invalidating some of the railway legislation secured by Gov. Johnson in Minnesota, the fact remains that he has done what he set out to do and secured the enactment of popular and beneficent legislation. It, as now seems probable, the epoch-making decision of the court in large measure transfers railway legislation from the states to the national legislature, that comes of particular significance, that one of the earliest acts of Gov. Johnson's career as a member of the Minnesota legislature was the introduction of a memorial to congress to extend the powers of the interstate commerce commission, a memorial which autedated the extension of those powers by some four years.
